Our second Estonia mammals tour will be led by Nigel Goodgame, departs in May. We offer the widest and best selection of bird and wildlife voyages including the second North Atlantic Odyssey, from Scotland to Spitsbergen, this time with Dick Filby onboard, Puffins to Polar Bears, the Arctic on a budget. The second West African Pelagic will operate in 2013, an improved itinerary could yield Zino's Petrel at sea. This is another extension of our world famous Atlantic Odyssey, and offers some superb seabirds and cetaceans at an affordable price. The second 'In search of Spoon-billed Sandpiper' expedition will also run next year, a unique opportunity to search for more new breeding sites in the Russian Far East! Over 98% of our holidays ran in 2011, we do not like to speculate with your holiday plans. Limited access to Midway Atoll out in the Pacific has been granted again for a lucky few people next year, along with another tropical seabird paradise, Christmas Island. Mark Andrews returns to Thailand for Spoon-billed Sandpipers and much more again, three departures on offer with an extra night plus our famous pitta extensions led by the legendary Yotin. The fifth Eilat Spring Migration sure pulled in the goodies again this year, why not try some of the best birding in the Western Palearctic yourself? Wild Insights holidays have a few places available in 2012 and 2013, it's always worth calling or sending us an e-mail to check if you are interested in joining Keith and Linda.**

**Our Antarctic experience is second to none, we have been taking people there for twenty years now and offer the best guided tours and/or range of voyages for the independent traveller too.
